Company Background

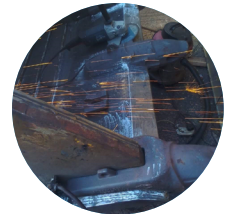

Our Story

NICALIE ENGINEERING SERVICES was founded on 20 June 2016 and will become a reputable player in the transformation of South African industry.

Our team will be led by our CEO WHOSE WEALTH OF EXPERIENCE IN THE MINING ENGINEERING AND RELATED FIELDS. His experience covers design, implementation and projects management of projects in general machine shop and fabrication engineering. This flexibility allows us to service a wide variety of customers from small to major enterprises.

NICALIE has necessary resources, capacity and experience to meet current and future customer requirements.

Management at NICALIE is confident that the company will continue on its successful path in 2026. The company enjoys a diverse and talented workforce which is firmly committed to the customers and company's success for now and beyond.

Vision & Mission

Vision

To be the trusted global partner for mining companies, delivering innovative, sustainable, and cost-effective refurbishment and manufacturing solutions for critical equipment, while enhancing customer productivity and profitability.
